2nd Roll

The Batter for the Reds is **Smith**. He rolls a 6.

IMPORTANT: There are always 4 plate appearances each inning. SOs and Outs override Hits.

Smith's skill is **GREEN**, so I check the **GREEN** row under Hitting.

I then write this result under the "H-AB" section of the score sheet.

2nd Roll

The Batter for the Reds is **DoggyBone**. He rolls a 4.

IMPORTANT: There are always 4 plate appearances each inning. SOs and Outs override Hits.

His skill is **BLUE**, so I check the **BLUE** row under Hitting.

Because he received a Walk (BB) he only receives three [3] At Bats

Tied Games and OT

When a game is tied, the tie breaker inning (OT) is decided as follows.

Using **LOBs (Left on Base)**. Each team takes turns rolling 1 dice against the **BB only Scoring table**. If only one team has LOBs, they automatically win with a 1 run on error.

In this example the Reds have 9 chances to score and the Dogs have just 4. If there is no result after 4 rounds, the Reds will win because the Dogs will have no chances left*.

Each team as a turn rolling to score each round.

If both teams score, they cancel each other out and must try again.

However, now the Reds have 8 and Dogs 3 chances left.

When one team scores and the other fails to score the scoring team wins in OT.

When a team scores. It is counted as an Error Run, the only other stat added is 1 extra inning for each closer pitcher.
